Online Registration
Step by Step
• Log into Powerschool using your student ID and password
• The screen below should be what comes up first
• Once you click on Class Registration this screen should appear (if it doesn’t look like this please let someone know)
Once you click on the pencil icon a popup window will appear. On this screen you will select your class by placing a ✓ in the box.
Once you have made your selection for your class click on the okay button.
Your course selection will populate on the screen as you see below.

Repeat the process from slides 3-5 for all of your core and elective classes.
Note: For elective classes you will need to click on the numbers to find all the elective options.
For your Foreign Language Selections you will need to click on the pencil beside Foreign Language and make your selection.

Please note that **ONLY** Spanish and French are teacher taught Foreign Language Classes.
Once you have made all of your selections for core and elective classes you will click the submit button at the bottom of the screen.
This is what your course selection will resemble once you have clicked the submit button.

Note: You can make changes up until your scheduled appointment with your counselor. After which no changes can be made.
